

Butyl Rubber Liner

Tried and trusted for many years, butyl rubber is tough, durable and pliable, and for a time, was the only liner of choice. Its main advantage is that it can be box-welded to intricate shapes to provide sharp, neat corners in more formal ponds. Simply let us know the shape and size of your pond or water feature and we will get back to you with a price and date for delivery, direct to site.

Code	Description	Price
PNL8080	Butyl rubber pond liner 0.75mm (per m ²)	£5.78

We charge extra for delivery (at cost) on all liner orders over 10kg. Please allow at least 7 days for delivery.

Butyl rubber pond liner

Splice tape adhesive and bonding adhesive

Splice tape for Firestone and Butyl pond liner

To join rubber liner

1. Clean both pieces of liner using unleaded petrol, apply the adhesive on both facing pieces of liner and allow to go touch-dry.
 2. Apply the splice tape to one side, then join the pieces together and apply pressure. Leave for 12-24 hours before filling the pond.
- Do not apply under damp conditions.*

Gravel Liner

This innovative product is manufactured by bonding fine pebbles to 0.5mm PVC liner. It is the perfect solution for edging lined ponds or installing a running stream or watercourse where a natural looking pond edge is required. We recommend using normal pond liner under the gravel liner, fixing the edges with PVC adhesive.

Code	Description	Price
PNL8206	Gravel liner 0.5mm PVC - 0.6m wide (per m)	£21.06
PNL8212	Gravel liner 0.5mm PVC - 1.2m wide (per m)	£41.67
PNA0880	PVC adhesive - 1 litre	£20.22

Gravel liner for finishing the edge of ponds

Pre-formed Butyl & PVC Liners

These heavy duty Butyl & PVC liners come pre-formed for a crease-free pond and require no folding, cutting or sealing. Simply excavate, lay protective matting, install the liner and fill. Our pre-formed Butyl liners are available in a wide range of other sizes and can be made to your exact requirements; please ask for details.
